

Job Description Mechanic

Overview

We are seeking a skilled Mechanic to join our team. The ideal candidate will have a strong background in maintaining and repairing various types of machinery and equipment. This role requires expertise in automotive diagnostics, hydraulics, and diesel engine repair, as well as the ability to work with industrial equipment. The Mechanic will be responsible for ensuring all equipment operates efficiently and safely.

Duties

- Perform routine maintenance and repairs on various machinery and vehicles, including police vehicles, sanitation trucks and other industrial equipment.
- Conduct automotive diagnostics to identify issues and implement effective solutions.
- Repair and maintain hydraulic systems, ensuring optimal performance.
- Work on diesel and gas engine repairs, focusing on performance enhancement and reliability.
- Inspect shocks and struts for wear and functionality, replacing parts as needed.
- Maintain accurate records of repairs and maintenance performed on equipment.
- Collaborate with team members to ensure safety protocols are followed during all maintenance activities.

Requirements

- Proven experience as a Mechanic or in a similar role is preferred.
- Strong knowledge of automotive diagnostics and repair techniques.
- Familiarity with hydraulic systems and industrial equipment maintenance.
- Proficient in diesel engine repair with an understanding of related systems.
- Strong problem-solving skills with attention to detail.
- Ability to work independently as well as part of a team in a fast-paced environment.
- A valid driver's license may be required for certain positions.

Join us in maintaining the highest standards of safety and efficiency in our operations while contributing your skills to our dynamic team!
